

Dedicated Hosting - Your own virtual machine

Dedicated hosting benefits using our virtual machines:

- Choose Microsoft or Linux
- One or two virtual cpu
- 1 GB virtual RAM minimum
- Fully control your server
- Fully control your domains
- Run your own software
- Cisco Enterprise firewall
- Remote IPSEC VPN access
- Private gateway option
- Enterprise-class hardware
- Auckland data centre
- Unlimited traffic*
- Free business hours support
- 24 x 7 support options

Two pre-built solutions:

Webstream offers pre-built virtual machines with either Microsoft Windows 2003 server with IIS or Red Hat Linux with Apache, PHP and MySQL. Monthly Microsoft ISP licensing is available for most Microsoft server-based software products such as SQL Server and Microsoft Exchange. Call us on 0800 474748 if you have other requirements.

*Traffic usage:

We like to keep it simple. All our standard virtual machine hosting packages include the Cost of your site traffic to and from the Internet. Bandwidth costs us money however, so we do reserve the right to monitor site usage. If you regularly use over 20GB of bandwidth monthly, extra charges may apply.

Webstream Dedicated Hosting on Virtual Machines

Webstream's pre-built virtual machines provide your own dedicated server environment running on our quad-processor enterprise-class servers. The benefits? The power, control and resources you need for much less than the cost of an equivalent dedicated hardware solution. We offer two pre-built solutions and can custom build to your needs if required

Option 1 - Dedicated Windows machine running Windows 2003 Server

Includes one-processor license with IIS and ASP.NET 1.1/2.0 support. Add FTP and SMTP servers if required at no extra charge. Host multiple domains. Add additional software options such as SQL or Exchange using our Microsoft ISP Licensing facility*.

Plan No.	Disk	Traffic	Set-up fee	Monthly**
WV-0010	10 GB	Included	\$50	\$200
WV-0020	20 GB	Included	\$50	\$400
WV-0030	30 GB	Included	\$50	\$450
WV-0050	50 GB	Included	\$50	\$500
WV-0080	80 GB	Included	\$50	\$550
WV-0100	100 GB	Included	\$50	\$600

*Microsoft monthly ISP licensing charges apply. **Prices do not include GST.

Option 2 - Dedicated Linux machine running Red Hat Linux Enterprise

Your open source solution. Includes Red Hat Enterprise Linux, Apache 2.2, MySQL 5.0 and PHP 5.2 or later. Host multiple domains. Add your own software options or have us install them for you.

Plan No.	Disk	Traffic	Set-up fee	Monthly*
WV-0020	20 GB	Included	\$50	\$350
WV-0030	30 GB	Included	\$50	\$400
WV-0050	50 GB	Included	\$50	\$450
WV-0080	80 GB	Included	\$50	\$500
WV-0100	100 GB	Included	\$50	\$550

*Prices do not include GST.

DotNetNuke Content Management

You can add DotNetNuke (DNN) Content Management to any of our Windows virtual machine solutions. DNN provides a secure, fully featured content management system. Edit your site from anywhere, plus over 30 pre-built modules are available to publish pages, images, forms, documents, surveys, discussion groups and much more. Note that on your virtual machine, DNN requires an installation of MS SQL 2005 and additional monthly Microsoft ISP licensing charges apply. Please see our web site for more information.

Custom solutions, intranets and dedicated servers

No matter what your system requirements are, in all probability we can provide an outsourced system solution to meet your needs. For more information on our dedicated server hardware solutions, please see our web site or call us on 0800 474748. For more information on completely outsourced enterprise desktop solutions, please visit the web site of our technology partner Appserv Limited at www.appserv.co.nz.
